Solid core explained ~

SCE-3 (5mm) means: Solid Core, End Emitting 3mm active light diameter and 5mm outside diameter. If the "E" is replaced with an "S" that means Side Emitting cable
This code is used on all solid core cable.

Most cable is available in 500 foot lengths. Please call for availability.

All pricing is subject to change without notice.

Please call for availability on fiber optic cable. Not all cables or lengths are available 100% of the time.
