BENDHEIM WALL SYSTEMS

LINIT Channel Glass by Lamberts

New project photos... [Click Here!](#)

Channel glass — up to 23' tall, available tempered or annealed, in four surface textures, low iron, enameled colors, or selectively sandblasted. Lamberts channel glass choices are almost unlimited.

Our team of engineers and installation professionals will work with you from concept to completion, insuring the channel glass wall system you specify meets or exceeds design and performance objectives.

The Glasfabrik Lamberts is the largest independently held glass factory in Europe. Protection of the environment is a top priority for the company. Their sophisticated oxygen/fuel fired cast glass furnace is the only one of its type in Europe.
